Welcome to Cultural Living Retreat 2026

We welcome you to our apartment. You will have the entire place to yourself; we just ask that you follow a few simple common-sense rules to make your stay enjoyable, as well as for the guests who will come after you.

• **Assistance:** If you need anything, you can contact us via the Airbnb chat or WhatsApp using the number shown at the top of this document. We are available from 07:00 to 22:00 and will reply within a few minutes.

Some Technical Tips

- For all kitchen appliances, you will find a QR code that links to the main instructions.
- During the Autumn–Winter season, you can adjust the apartment temperature using the thermostat located on the first floor near the bedrooms. Please avoid setting the temperature too high, as the apartment is well insulated and keeps the warmth inside. At the end of your stay, please set the temperature to 19°.
- In the municipality of Fossa, waste sorting is mandatory. You will find the dedicated bins in the kitchen, and you will receive information about the collection schedule.

Induction Plate Use

To use all pans and pots on the induction hob, an adapter is required as shown in the images below.

1. Insert the spring handle into the adapter.
2. Place the adapter on the heating zone you want to use.
3. Remove the spring handle from the adapter.
4. Place the pot or pan.
5. Turn on the induction to the desired power.
6. **WARNING: To remove or move the adapter, always use the spring handle to avoid the risk of burns.**
